	Blinking green light	Camera is recording

2. Installation

2.1 Before Installation

1. Take out the mount and push in the mounting according to the direction indicated in the figure below.

2. Before installing the camera, please power on the screen to observe the screen displayed in the screen, simulate the situation when driving, determine an optimal installation location, and then go to clean the installation location.

3. Insert the memory card according to the direction of the memory card indication in the figure as follows.

Note: When inserting a memory card for the first time or inserting a brand new memory card, it may remind you of "memory card error", just make sure to format the card in System Settings > Format

Settings to use it normally.

2.2 Installing the camera onto your windshield

1. Installation: Stick the electrostatic sticker behind the rear-view mirror, which is the recommended position to prevent blocking your view while driving.

Note: There are two protective films numbered 1 and 2. The first step is to tear off the No.1 protective film and stick it on the front windshield, then tear off the No.2 protective film.

2. Peel off the protective film on the E1 Lite mount, align it with the middle of the electrostatic sticker, and stick it in place.

3. Install the car charger: Please take the car charger out of the package. Connect one end of the car charger to the cigarette lighter and the other end to the E1 Lite mount port. When finished, just put the car charger cable in order as instructed in Figure 2.

When organizing or storing car charger cables, cable clips can be used for securing them in place. After attaching the cable clip to a suitable spot, simply fasten the cables within the clip.

4. Start the engine, the camera will automatically turn on and record video.

3. Use the "Vantrue" APP

3.1 APP Download

After downloading the Vantrue APP on your phone, you can connect to the E1 Lite camera via Wi-Fi.

Method 1: Download "Vantrue" via Apple store and Google play

Method 2: Download it through Vantrue's official website (www.vantrue.com)

3.2 APP Connection

After the APP is downloaded successfully, you can connect your phone with E1 Lite.

1. You need to open the camera Wi-Fi first. You can open Wi-Fi by voice wake up, long press the menu button, enter the menu settings.

2. Open the Vantrue APP in your phone, click "Add Device", select the correct model, and it will jump to the mobile Wi-Fi setting interface. Please find the Wi-Fi named E1 Lite_VANTRUE_XXXX, click connect, enter the password and then return to APP to connect.

Note:

- (1) The order of Wi-Fi connection is from Figure ① to Figure ④;
- (2) Successfully connect Wi-Fi, then open the APP, click on the connected Wi-Fi, and the APP will automatically connect to the camera.
- (3) There will be a connection guide when you first add the device in the app, and you can follow the guide step by step. If you still have questions about Wi-Fi connection, you can contact VANTRUE official customer service, and we will provide operation video guidance.
3. After successfully connecting to Wi-Fi, you can preview live driving videos, play back files, change camera settings, share your travel videos and more through the Vantrue app

4. Voice Control

E1 Lite comes with a voice remote control system. The languages currently supported are Chinese, English, Français, Japanese and Russian. For detailed voice recognition commands, please check in System Settings > Voice Content.

5. Viewing files on a Computer

1. Please use the USB cable included in the Vantrue dashcam package to connect to your computer to view the E1 Lite recording files.

2. You can remove the memory card from the camera, and then use it with a card reader to view the files on your computer.

6. Warranty & Support

Warranty

The VANTRUE® Element 1 Lite Dash Cam comes with a full 12 months warranty. If you register your product on our official site (<https://www.vantrue.com>), you can extend the warranty to **18 months**.
